

FORNO Rivestito 24" Panel-Ready Dishwasher

Model FDWBI8011-24

This guide lists the dimensions needed to make a custom door panel for this dishwasher. Share it with your cabinet maker or installer before ordering the panel.

1 Custom panel dimensions

The custom panel should be 23 7/8" wide, up to 29 1/2" tall and about 3/4" thick.

MEASUREMENT	IMPERIAL	METRIC
Panel width	23 7/8"	606 mm
Panel height (maximum)	29 1/2"	750 mm
Panel thickness	49/64" (about 3/4")	19.5 mm

2 Dishwasher dimensions (cabinet opening)

The dishwasher fits a standard 24" opening. Its height adjusts between 33 3/4" and 34 3/4".

MEASUREMENT	IMPERIAL	METRIC
Width	23 7/8"	606 mm
Depth	24 1/4"	615 mm
Height (adjustable)	33 3/4" - 34 3/4"	857 - 882 mm

3 Mounting-point layout (back of panel)

Use these positions to attach the panel to the dishwasher door. See the diagram on page 2.

MEASUREMENT	IMPERIAL	METRIC
Top edge of panel to mounting points	3 15/16"	100 mm
Left edge to left mounting point	2 15/16"	75 mm
Right edge to right mounting point	2 31/32"	75.5 mm
Clear space between mounting points	17 9/16"	445.5 mm
Width of each mounting point	3/16"	5 mm

5 Installation notes

- The $29 \frac{1}{2}"$ (750 mm) panel height is a maximum. Size the actual panel to match your adjacent cabinet doors and toe kick.
- All dimensions come from the manufacturer's installation diagram.
- For full installation steps, refer to the installation manual supplied with the dishwasher.

Before cutting: have your cabinet maker or installer confirm these dimensions against the dishwasher before the panel is made.
